Tuition Assistance

Bay Grove is committed to supporting families' access to a high-quality Montessori education.

We are actively pursuing state-funded scholarship options.

We also offer tuition grant and aid through our indexed tuition program for families who are ineligible for state scholarship, or need additional assistance.

Our Mission

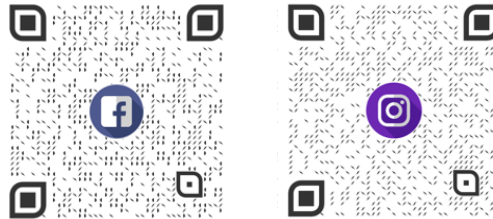

Bay Grove Montessori School is an early childhood and elementary school serving the Freeport-local community. Our mission is to provide students with a safe, warm, nurturing, and engaging environment that is rooted in Montessori philosophy and practice. Here at Bay Grove, we cherish and encourage children's natural curiosity and love of learning and help instill respect for self, others, nature, and the earth.

What is Montessori?

The Montessori Method is a time-tested and evidence-based approach to education. It is individualized and designed to meet the needs of each child and promote intrinsic motivation, self-confidence, and self-regulation. Our curriculum cultivates grace and courtesy, independence, peace, leadership, innovation, and respect. By honoring the child as a whole, fostering a global mindset through peace education, offering leadership opportunities and guidance, and inspiring a lifelong love of learning, Montessori inspires students to be independent, self-confident, and responsible leaders, innovators, and citizens.
